The only national nonprofit organization dedicated to **finding a cure** and improving the **quality of life** for those affected by hepatitis B worldwide.

Hepatitis B Foundation

- Outreach and Education
- Public Health Research
- Policy and Advocacy
- Education and Training

Baruch S. Blumberg Research Institute

- Biomedical Research – drug discovery and early detection methods for cirrhosis and HCC
- PA Biotechnology Center and Biotech Incubator

Updated CDC Recommendations for Adult Hepatitis B Vaccination

◆ Who should be vaccinated?

Adults < 60

Adults 60 years and older with
risk factors* for hepatitis B

Anyone who wants the vaccine

**Universal adult
HepB vaccination
through age 59
years removes the
need for risk
factor screening
and disclosure.**

**Only use risk factor to assess when a patient is 60+ years old AND does not request the vaccine.*
